Comments Report

1. Course Evaluation

1.11) Additional Comments:

- Awesome professor!
- Discussion could get a little repetitive, so a larger range of provocative questions would be useful to stimulate different types of discussions involving more areas of issues or policies for example.
- Great class that made me think very deeply about this class
- Great class, well prepared and really enjoyed his teaching methods!
- I absolutely loved this class! I feel like I learned a lot about education and felt very comfortable participating. It was interesting to get deep into the concepts and really think about certain subjects. Thanks for a great semester!
- I loved how approachable and open Professor Henne-Ochoa was. I felt as though he was extremely good at allowing students to voice their opinions while reserving any judgement. He has been my favorite Bucknell professor to date and this class really opened my eyes to education in the US.
- I really enjoyed the discussion aspect of this class and felt like I learned a lot.
- I really enjoyed this class and learned much about the education system
- I really enjoyed this class! I think that an understanding of education is so important, especially in society today. I think that every student at Bucknell should take this course. It really widens your views.
- I really enjoyed this class. I think that more incorporation of the some of the homework assignments we were asked to do would be a great addition. But overall, I am glad I took this course and loved Professor Henne-Ochoa! After taking this class, my interest has spiked and I hope to take another education class in the future.
- I think in general that the class was very good and the professor did a great job providing provocative questions and leading valuable discussions. I think the class could have been more effective if it was smaller and if we used a wider array of different activities.
- I thought the way that this class was instructed was fascinating and beneficial; Professor Henne-Ochoa always remained neutral, regardless of his own beliefs in order to keep the classroom environment comfortable for everyone. This was necessary, obviously, due to the content of the class. He clearly understood how these topics typically instill discomfort in many students and wanted to make us the most comfortable as possible.

Thanks for a great semester!

- I wish we had incorporated our Provocative Questions and Answer-to-Questions in class. I like how once a student proposed an idea or thought he would inquire more to develop the idea and open it up for a class discussion. Professor Henne-Ochoa was a great professor to have for my first semester of college because he really was available for help and showed me what a good professor looks like! I thoroughly enjoyed this course and hope to have another one with Professor H-O in the future.
- Professor Henne-Ochoa did a great job at teaching the class, stimulating deep discussions, and helping students gained practical knowledge. GREAT TEACHER!!!
- Professor Henne-Ochoa is the best professor on campus. Learned a lot in this course because of his passion for the subject but also his understanding of students needs.
- Professor Henne-Ochoa was a great professor and I would highly recommend him to another student. My only suggestion would be to take this class as a freshman or sophomore. As a junior, I struggled to engage and feel challenged by the material. As a freshman I think this class would be appropriate. Overall he is a great professor and extremely understanding!
- Professor Henne-Ochoa was a very dedicated and passionate professor. I want to thank him for encouraging me to think deeply and for enhancing my learning and perspectives inside and outside of the classroom!
- Professor Henne-ochoa is very passionate about education and that is very apparent in class discussions. It made everyone want to participate more and gain a deeper understanding. I would definitely recommend this course
- Professor Ochoa was one of the best professors/ the best I have ever had. He is extremely approachable and genuinely cares about every single one of his students. He does an amazing job teaching the material and is very clear and helpful! I would recommend him to anyone.
- Provocative questions and answer-to questions got a little repetitive. I suggested doing the current events in education to maybe supplement one of the questions per cycle. Otherwise I am glad I took this course and gained important points of view. Thank you.
- Since there was no tests or quizzes, I was able to learn more and be more engaged in the class

■ THIS CLASS WAS LIT

- The class was designed to be very discussion based which facilitated in-depth thinking and conversation. Overall I learned a lot and enjoyed the class. Thank you Professor!
- The class was very well-organized and forced me to reflect on my educational foundations.
I learned a lot during this class and would highly recommend it to other students.
Professor Henne-Ochoa was very supportive and realistic with assignments and grading.
- This class was very interactive and helpful from a social standpoint as well as educational
- This professor did a good job letting students take a role in teaching during class. While this could have been improved, he conveyed important topics throughout the class.
- outstanding course and professor
