1.11) Additional Comments:

- At times the way the class was run got a little stale and it seemed as though class discussions were repetitive. I think a way to fix that is have different ways of discussion the material and make class not as standard. Other than that I really enjoyed the material and thought professor ochoa was a great teacher.
- Definitely an eye opening course but I will say that it tended to have a very specific view on education in that the educational system is currently broken. I don't strongly believe either way however I feel the counter argument should be mentioned.
- Excellent professor. This course has opened my eyes to a lot of course the things that have been happening around me. Professor Henne-Ochoa has been great as he is very approachable, and open to ideas of all students. It truly has been a pleasure taking his course.
